

## Professional indemnity

Though we are effectively an agent of the ambulance trusts and treating NHS patients we are not an NHS organisation & should not rely on NHS indemnity.

SWIFT Medics doctors will all hold their own professional indemnity insurance. The medical defence organisations must be aware of the individual's pre-hospital care activities and agree to provide professional indemnity for all these activities. E.g. primary response and air ambulance work.

SWIFT Medics will hold confirmation by e-mail that individual member doctors hold such indemnity & will continue to hold this whilst they are active members of SWIFT medics.

This confirmation will be part of the '**acceptance of membership conditions**' form to be e-mail back to SWIFT Medics after membership has been approved.
